What did you like the most about the course?

VEV732 by Dr. Ramesh Bijlani

Clarity of the instructor; visit to the Ashram; practical Yoga sessions

I liked the concept of self discovery and ways to follow it.

I really liked how practical spirituality was being talked about.

Insights about the purpose of life was quite good to know. And brilliantly messages are given by Bijlani sir.

Instructor explained each and every idea from same level as the students. While the ideas were unconventional and difficult to grasp, he was very patient throughout.

It was compact yet enriching. besides, we had an opportunity to visit the ashram safety habits taught in efficient way

Describe your course experience to a fellow student

VEV732 by Dr. Ramesh Bijlani

Broad introduction to Yoga and spirituality, although might be too much for somebody new Course is very insightful, the best part being the yoga practices.

helpful & meaningful

Highly recommended

It was a wonderful experience and helped to understand a lot of things and raise a lot of important questions regarding life.

It was an insightful course. Yet, the long hours of lectures each day needs patience. If the person is not truly interested in such a topic of discussion, then , it is not recommended to attend this course merely for the sake of completion of curriculum.

Just join the course.You will thank me later.

Keep calm and listen to the teacher

Such a great course to do where one will benefit the essence of yoga in scientific manner
The course can be thought of as an escape from the usual college curriculum. At the same time we learn many new things. So it is worth doing.

You will experience what u have not till now. And you will not regret the decision of attending such a course which teaches you the values.
