After meditation filling better  
 I would tell them to do it beacuse these types of courses expand our consciousness about our freedom fighters.  
 If one needs to understand Indian politics and bureaucracy, a good starting point would be to understand Gandhian principles.  
 it is great to have a course which is out of our regulars  
 Take it for once  
 Take the course if you have any views for or against Gandhi.  
 they will know about the Gandhi very detailed manner , they can learn from it
